

# Socioeconomic Yearbook of the agricultural cooperatives of Catalonia 2016

The agricultural cooperatives contribute in a significant way to the economic activity of the Catalan agri-food sector.

The Yearbook, which is part of the project of the Observatory, highlights the main figures of the sector based on a field work carried out on the basis of surveys conducted in the associated cooperatives of the **Federation of Agricultural Cooperatives of Catalonia (FCAC)** that brings together almost all agri-food cooperatives in Catalonia.

The figures shown are as of December 31, 2015, except for the turnover that belongs to 2014, and refers exclusively to the association's member cooperatives.
